### RADIO PROGRESS "TEN TESTED CIRCUITS"

THIS issue of Ten Tested Circuits is No. 2 in our series of "Radio Progress". The sets described comprise multi-valve A.C./D.C. sets, simple battery sets, all-wave receivers, modulated oscillators and amplifiers. Each set is complete with constructional data, list of parts required, scale drawings and photographs. The circuits published in No. 2 are all up-to-date and embody the results of practical experience and the wants of the public as expressed by correspondents. Full-size prints of the circuits can be supplied to constructors. 40 pages, 2-colour cover.
