

**4. Einstellen der Sperrkreise**  
**Adjustment of tuned trap**  
**Réglage du circuit bouchon**

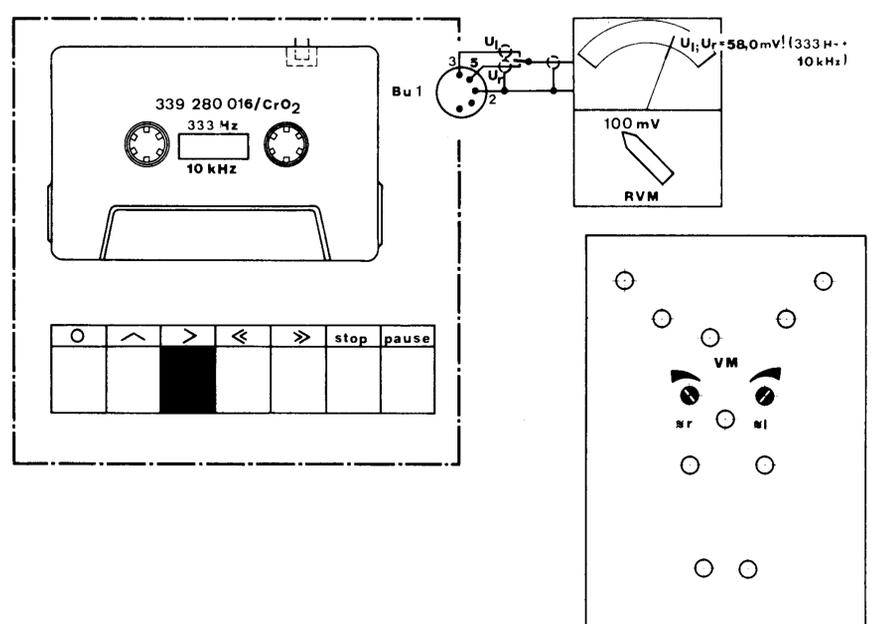

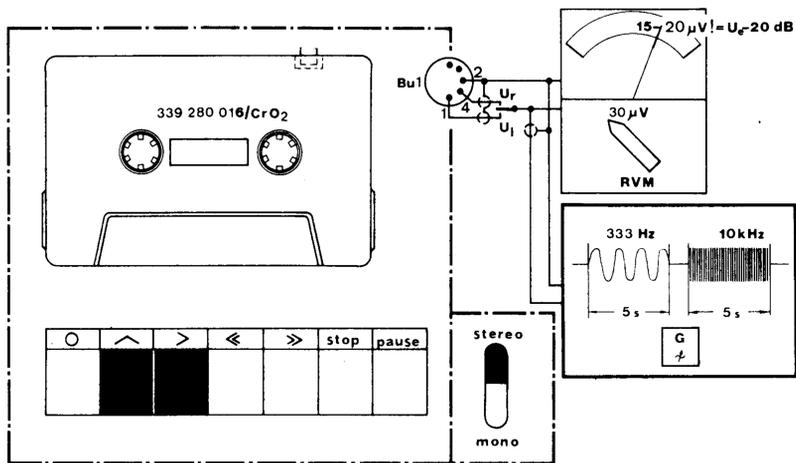

**5. Bandgeschwindigkeitskontrolle**  
**Tape Speed Control**  
**Contrôle de la vitesse de défilement de bande**

**6. Einstellen des Frequenzganges über Band**

**Adjustment of frequency response over tape**

**Réglage du passage de fréquence de la bande passante**

Verstellen der Trimmer: Mehr Hf am HSK  $\hat{=}$  weniger Höhen  
 Weniger Hf am HSK  $\hat{=}$  mehr Höhen

Adjustment of trimmers: More RF at record/playback head gives less treble response  
 Less RF at record/playback head gives more treble response

Variation des trimmers: Plus de Hf au HSK (à la tête LE): moins d'aigües  
 Moins de Hf au HSK (à la tête LE): plus d'aigües

**7. Kontrolle der Aufnahme-Automatik**

**Automatic recording level control**

**Enregistrement-automatique**
