

Garrard

**THE GARRARD
ENGINEERING AND
MANUFACTURING
CO., LTD.,
SWINDON, WILTS.**

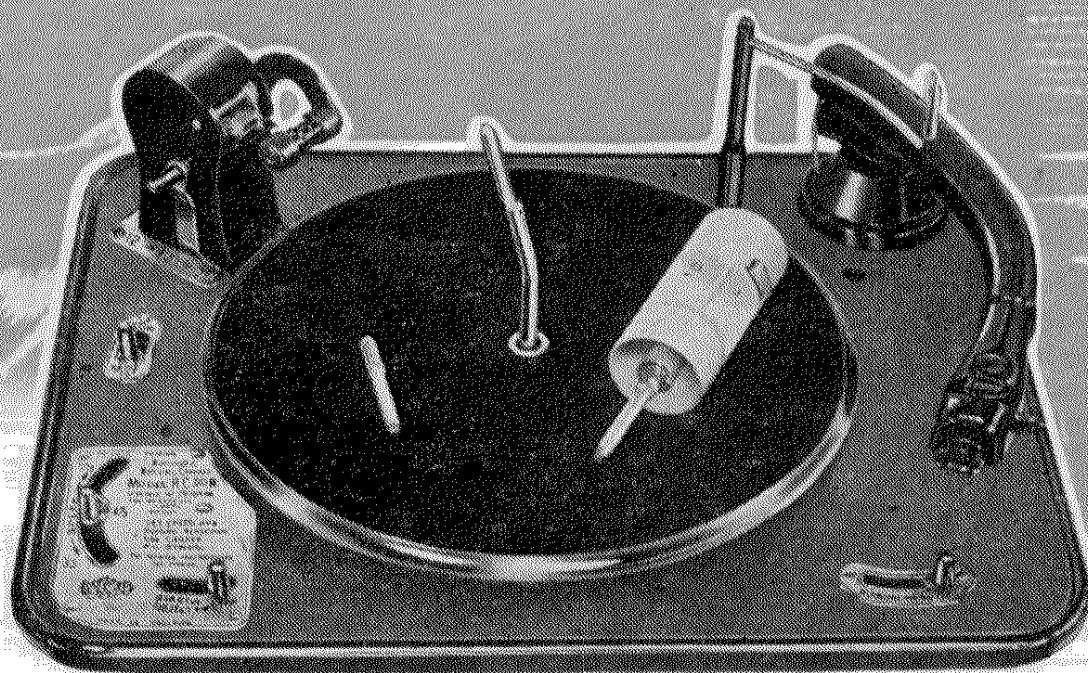

Garrard has for 35 years been recognized throughout the world as representative of superb British skill in design and manufacture of precision gramophone equipment. The experience gained is reflected in the design and reliability of the current models.

All Garrard Record Changers will play automatically any number of records up to ten of any one of the following types at each loading.

10" or 12"	at 78 r.p.m.
7", 10" or 12"	at 33 $\frac{1}{3}$ r.p.m.
7"	at 45 r.p.m.

Garrard Record Changers and Player Units are available for use on A.C. supplies 100 to 130 and 200 to 250 volts, 40, 50, or 60 cycles according to the motor pulley fitted, also with the exception of the RC.90 and RC.110, A.C./D.C. and low voltage types are available. The RC.90 is available for A.C. 50 or 60 cycles only.

Garrard units are suitable for use in all locations, including tropical countries, and are supplied complete in every detail ready for fitting into cabinet.

MODEL RC.90 THREE SPEED AUTOMATIC RECORD CHANGER

This unit has been designed to introduce a number of additional new features such as manual control, speed adjustment, and uniform changing cycle time on all speeds.

This new Changer is replaceable with all Garrard post-war models, except the RC.110, with a slight modification to the motor board cut-out. Supplied with large record spindle for 45 r.p.m. records, a sloping spindle for all other types and a short spindle for playing records manually.

Finished in a durable grade of brown enamel with chrome accessories. We consider this to be one of the finest units ever manufactured.

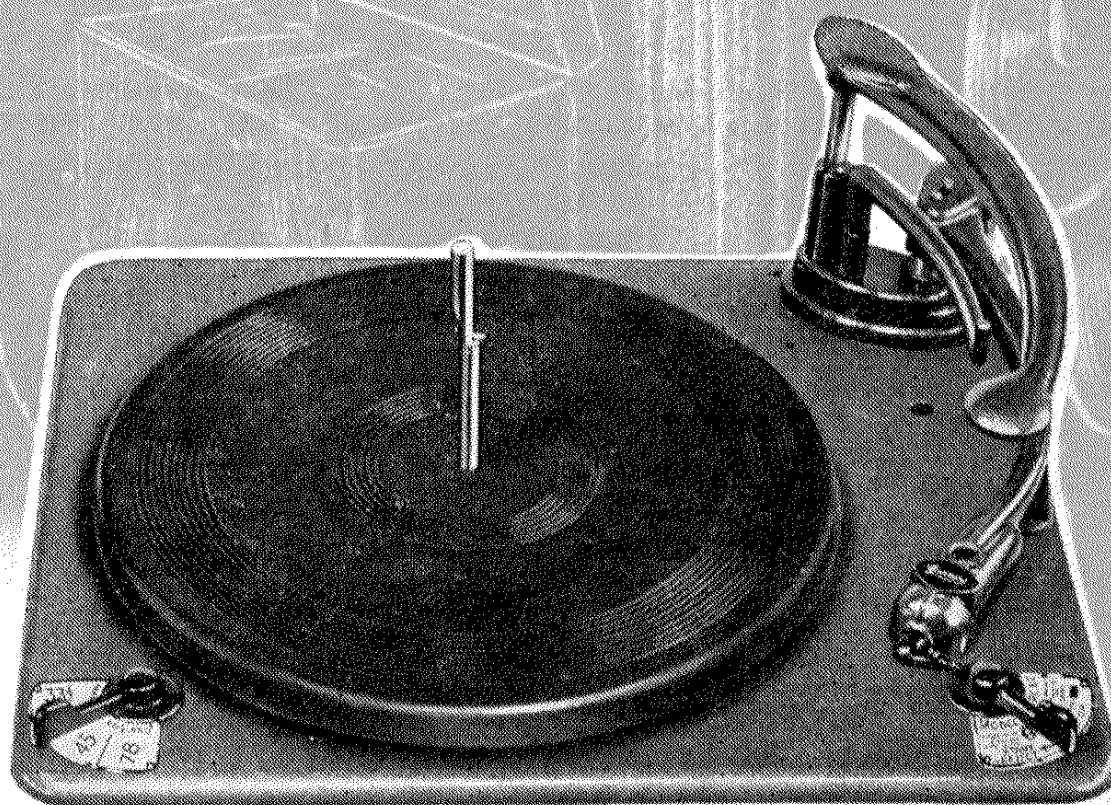

MODEL RC.80 THREE SPEED AUTOMATIC RECORD CHANGER

This Garrard Record Changer is internationally known for its quality and reliability.

In common with all the Garrard Changers listed, it has a patented ultra sensitive auto trip, it automatically switches off when the last record has played, and has a safety device which prevents the Changer operating unless loaded with one or more records; this feature protects the pick-up.

This Changer is supplied complete with a large record spindle for 45 r.p.m. records and a sloping spindle for all other types. Tastefully finished in brown enamel with chrome accessories.

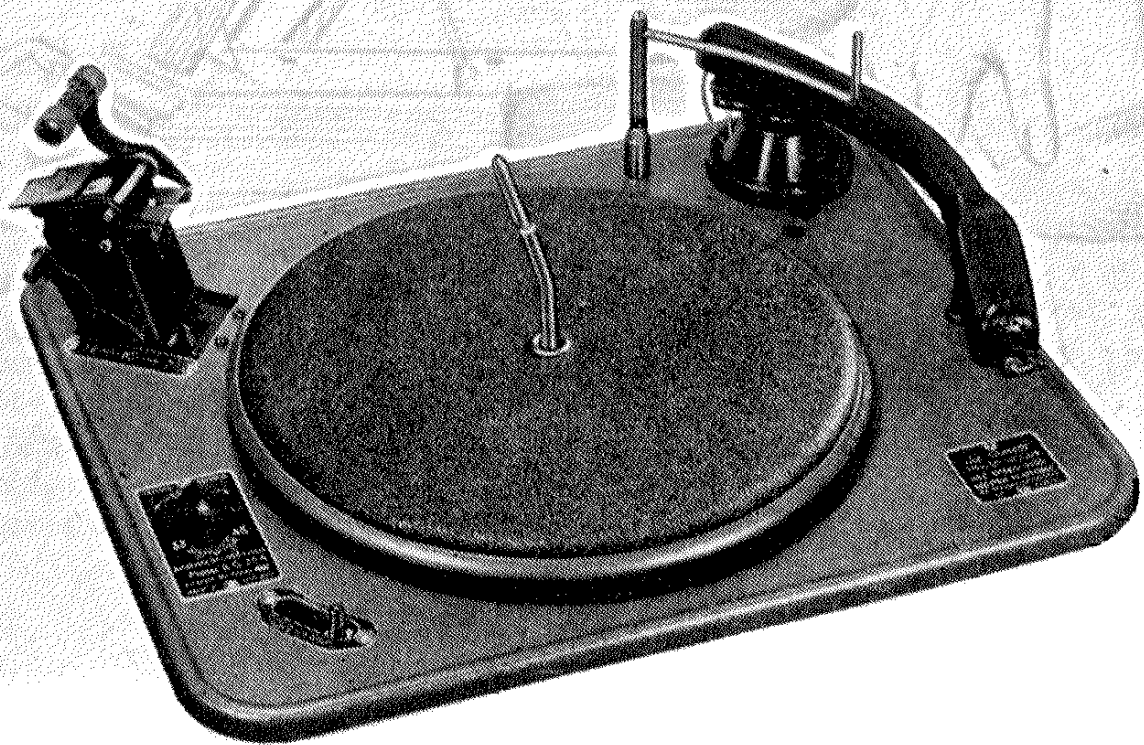

MODEL RC.110 THREE SPEED AUTOMATIC RECORD CHANGER

This new Record Changer is designed to meet the demand for a small compact inexpensive unit, maintaining the well known Garrard standard for quality and reliability.

The Garrard Model R.C.110 Record Changer plays all well-known types of records, including 45 r.p.m. records using centre hole adaptors, obtainable from record stores.

This unit has automatic record size selection, no knob to set for record size, silent record drop, one piece aluminium pick-up arm, and in common with all Garrard Record Changers has Start, Stop Reject Knob, and switches off when last record has played. The RC.110 has a rubber turntable mat, and is finished in a high grade of mottled enamel.

MODEL RC.75A
THREE SPEED
AUTOMATIC RECORD CHANGER

All the features of the Garrard Model RC.80 are incorporated with the exception that the 45 r.p.m. record spindle is an optional extra and the Changer is finished in a durable grade of mottled enamel with brown and chrome accessories.

MODEL 'TA' THREE SPEED SINGLE RECORD PLAYER

Designed to occupy the minimum cabinet space this unit has a number of special features incorporated. A diecast aluminium plug-in pick-up arm takes the range of plug-in pick-ups.

Model 'T' also available, has a one-piece bakelite pick-up arm, accommodating turnover pick-ups. Both models finished in mottled and brown enamel, complete with adaptor for playing 45 r.p.m. records.
